Key Message: On September 2 and September 4, 2017, the Denver metro nonattainment area recorded exceedances of the ozone standard. For the Denver metro nonattainment area, Colorado needs to show attainment of the 2008 eight-hour ozone NAAQS by July 20, 2018 (using 2015-2017 monitoring ozone data) or the area will be bumped up from a Moderate to a Serious nonattainment area.
